

Milled Plates and Blocks from IMS

Top and Bottom or 6 Side Milling

“What could cost you hours, takes us minutes.”

We recently milled a block 4.875" x 14-1/4" x 16-1/4" taking .375" off the top and bottom and taking .250" off the width and length. On a typical vertical machining center this would take anywhere from 3 to 4 hours. This includes setup as well as machine time. With our new equipment (*see photos*) it took us under an hour to setup and machine the block square 6 sides.

6 Side Milled Block

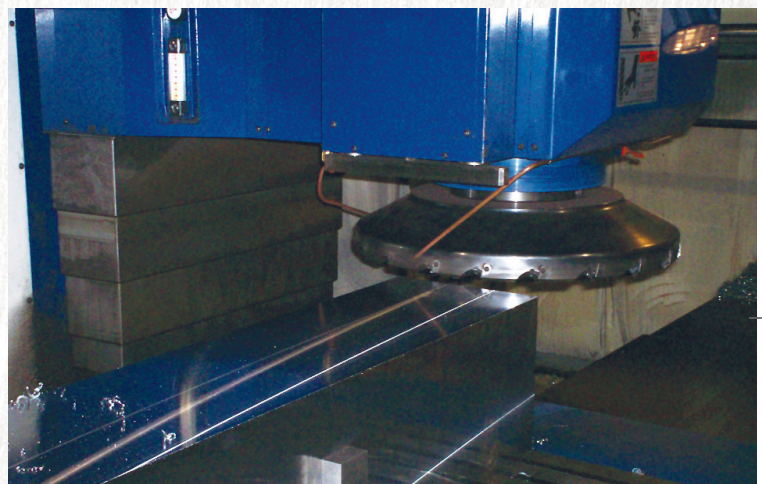

Block Dimensions: .375" to 9.00" Thickness
(2.75" to 31" Width X 2.75" to 31" Length)

Top & Bottom Milled Plate

Plate Dimensions: .375" to 11.81" Thickness
Up to 31.50" Wide
Up to 51.18" Long

Tolerance

Size: +.004" -.000
Square: .001" per/ft
